PROFESSIONAL OVERVIEW

Bachelor of Science in Information Technology graduate and Magna Cum Laude awardee with an academic background in data analytics, cybersecurity, system development, and project management. Practiced translating raw data into clear, actionable business insights, with a strong foundation in Excel, DAX, and data visualization, bringing a detail-oriented approach to data accuracy and reporting. Completed an internship at the NBI Region VI, contributing to the development of a Case File Management System and supporting IT operations.

EXPERIENCE

IT Intern | Investigative Dept., National Bureau of Investigation - WEVRO JAN 2026 – APR 2026

- With a team, developed a Case File Management System for handling and organizing case records.
- Led the initial front-end development and contributed to the system design process for the CFMS.
- Supported daily IT operations, including basic troubleshooting and system maintenance.

Participant | Startup Challenges, Various APR 2025 – OCT 2025

- Competed in local startup challenges, leveraging our thesis project as an innovative solution to address communication gaps between flood victims and rescuers.
- Earned multiple awards while strengthening presentation, scripting, and pitching skills before diverse panels of judges.
- Improved project management, problem-solving, digital innovation, presentation, and communication skills.

EDUCATION

Bachelor of Science in Information Technology — Magna Cum Laude | West Visayas State University AUG 2022 – JUN 2026

- Thesis: BaHanap: An Offline Communication and Flood Rescue System Utilizing LoRaWAN Technology
- Awards: WVSU SeedSpark 1st Runner-Up & Best Startup Pitch; PSCX Best in Social Impact Award; Philippine Startup Challenge Top 10 Finalist (Region 6); Special Citation for Presenting at ISIS 2025 in Cheongju, South Korea; Best Thesis: Research Oral Presentation.

PROJECTS

SQL Analytics Portfolio

- Wrote 20+ SQL queries in Google BigQuery using thelook_ecommerce and Superstore datasets, including window functions, cohort analysis, month-over-month growth (LAG()), and return-rate analysis.
- Published and documented all queries on GitHub, framing each query around a real business question.

CERTIFICATES

- Microsoft Learn – Data Analyst Career Path (Completed 7 Learning Trophies)
- Cisco: CCNA – Introduction to Networks; Switching, Routing & Wireless Essentials; Introduction to Cybersecurity; Junior Cybersecurity Analyst Career Path

SKILLS

Data Analytics	SQL	Power BI & DAX
Data Visualization	Google Workspace	Microsoft Office 365
Problem-Solving	Presentation & Communication	Project Management
Programming (Java, C++, C#, HTML/CSS, JavaScript)
